

PhD position in carbonate sedimentology

We are looking for a PhD candidate to work at the Institute of Palaeontology at the Research Centre of the Slovenian Academy of Sciences & Arts (ZRC SAZU) in Ljubljana.

The PhD project, supervised by Dr Andrea Martín Pérez, will be focused on sedimentology of continental carbonates, investigating the role of geobiological processes and early diagenesis in the paleoenvironmental record.

We offer:

- 4-year contract as a junior researcher, starting on 1st October 2024.
- Workplace in the lively centre of Ljubljana, possibility of long-term accommodation in a postgraduate residence.
- Participation in international conferences and workshops.
- Training opportunities.
- Wide international collaboration network.

Candidate's requisites:

- Degree in Geology, Earth Sciences, or related field.
- Master degree or equivalent obtained by 15 September 2024.
- Average grade in the master programme of at least 8.00.
- No more than four years have passed since the end of their second-cycle degree.
- Proficiency in English.
- Interest in conducting independent research and be prepared to do laboratory and field work, including abroad, and to apply new and advanced instrumental techniques.

Application deadline:

- **April 15th, 2024**, 2 pm (CET).
- Candidates will be called for an interview.
